

Trinity Episcopal School

Galveston, Texas

English Language Arts (ELA)

Overview

The ELA curriculum supports the development of a life-long love of reading and gives a solid foundation for higher order thinking. Instruction occurs in the context of a literature-rich environment. Parents are encouraged to keep books at home and to read with their children. Lessons are taught using both global strategies (i.e., guided reading) and analytical strategies (i.e., decoding words) in order to meet the needs of students who learn best in different ways. The curriculum will encourage and support active participation by the learner including the effective communication of ideas both orally and in writing. Trinity graduates are well-known as confident communicators; the foundation for this skill begins early in a Trinity education.

Student Objectives

begins:

Listening:

- | | |
|---|------|
| listen responsively to material read aloud | PK 2 |
| analyze a speaker's message for content and purpose | PK 3 |
